### ● Removal

- Refer to the figure.

D. -

E. -

F. -

G. -

## ■ After Installation

- Tailgate Adjustment

H. -

## ■ Sub-Procedure

- Removal

### ⚠ CAUTION

The tailgate will have to be opened/closed by hand, and will not stay open on its own after the tailgate support strut (a) is removed.

### NOTICE

The tailgate support strut must be removed together with the ball stud (b).  
(If the tailgate support strut is removed at the joint (c) with the ball stud, replace it with a new one.)

NOTE: Have assistants hold the tailgate while removing it.

## ● Installation

- When installing a new one, attach the ball stud to the body and then push the tailgate support strut joint into the ball stud.

### NOTICE

Make sure that the joint is securely set. Do not pull the joints strongly.

I. -
